

Be Involved...Be a Volunteer!

To me, an important part of being *involved* in your community is to become a volunteer. It doesn't matter if you are a child or adult, poor or wealthy, *everyone has some kind of talent or experience that is useful and appreciated.* What is yours?

Can you *imagine the positive impact* on your COMMUNITY if each person were to give of their time and resources each year, month or week? Now, *imagine the positive impact* that volunteering will have on YOU! May I suggest that you take several minutes to browse the web on the *benefits of volunteerism*? Then, please consider what *you can do as a volunteer!*

Thank you for giving your time, talents and resources to *make your community even stronger!* You *WILL* see that you can make a *positive impact.*

Please go to www.graftonchamber.com to view a detailed list of *volunteer opportunities* in our area, or call me at the Grafton Area Chamber of Commerce, **701-352-0781.**

Take care,
Emberly Lietz
